Winckelmans was founded in 1867 in northern France by Théophile Winckelmans and originally specialized in stoneware. Today Winckelmans is a worldwide leader in the production of ceramic and vitrified tiles for residential and commerical use. At the company's six million square foot manufacturing facility in Lille, France, a team of 150 employees produce a range of over 5000 standard tiles. One of the keys to the success of Winckelmans wide range of products is the intrinsic authenticity of unglazed fully vitrified tiles. The colors and matte surfaces of the tiles are completely natural and historically authentic. Long a favorite of designers and architects throughout the world, we are pleased to introduce the Winckelmans tile collection to the United States.
